

EFFISUS ADJOIN GS TAPE

DESCRIPTION

PE sealing tape.

Backing: Polyethylene film, UV stabilized.

TECHNICAL DATA

Technical data	
Thickness	0.35mm
Tensile strength	≥ 50 N/25mm
Elongation	130%
Adhesion	30.0N/25mm
Temperature range	-40°C to +80°C
Specification	Fulfils demands according to DIN 4108 Part7

OTHERS

Very pliable and stretchable PE film sealing tape with a special polyacrylic adhesive of extremely high adhesion and superior ageing resistance. Effisus Adjoin GS Tape is heat and cold resistant.

Effisus Adjoin GS Tape is equipped with a polyamide fiber carrier embedded into the adhesive, which reinforces the tape and prevents over expansion during application.

For airtight bonding and sealing of overlaps, joints and penetrations of vapor barriers in steep roof areas according to DIN 4108 Part 7. A maximum of 3 colours available.

Widths mm	50	60	75	100	150
-----------	----	----	----	-----	-----

Length 25m – Inner core diameter Ø 76.5mm

Version

V 1.1 – AT – 22/07/2011
