

Pre-fabricated corners for facade connections waterproofing

Effisus Ecofacade Pre-fab Corners are the ultimate supplement for a fast and error-free Effisus Ecofacade system installation. When waterproofing facade connections, corners are the hardest points to seal, due to the need of cutting the waterproofing membranes, creating overlaps and use of sealants. Effisus Pre-fab Corners are custom-made to the needs of each situation, which not only enormously increases speed of application, but also improves the whole system's efficiency. Through this, the most vulnerable areas are transformed into the safest ones.

Effisus Ecoface Pre-fab Corners, together with the Ecofacade System, provide the ultimate, efficient and sustainable, façade waterproofing. Not only do they increase the speed of a critical, but time-consuming job – Efficiency – but also, immensely, reduce the amount of wastes and boost service life-time – Sustainability.

Effisus Ecofacade Pre-fab Corners

Effisus Ecofacade Pre-fab Corners:

- Fully customisable dimensions and configurations
- Expectable durability of 50 years
- Resistant to UVs and ozone
- Service temperatures from -30°C e +140°C
- Permanently elastic
- Elongation of up to 300%
- Both thermal and structural vibration resistance
- Variants for internal and external application

Typical Applications:

- Connections in ventilated facades
- Connections in curtain walls
- Connections in traditional facades
- Connections in pre-fabricated facades
- Sustainable construction projects

**Transform the
weakest spot into the
strongest**

SOLUTION BENEFITS

- Robust – 100% waterproof and UV resistant
- Universal – Customisable dimensions and configurations
- Durable – High life-expectancy
- Flexible – Absorbs structural movements
- Easy to apply – Simple to handle materials and no need for accessories

SUPPLY INFORMATION

- Effisus Ecofacade Pre-fab Corners – Packaging depends on the chosen dimensions and configurations. Contact Up-Way Systems.
