
EFFISUS ECOFACADE ENVELOPE

THIRD PARTY CERTIFICATIONS

COLD CLIMATES/ EUROPE AND OTHERS SIMILAR REGIONS

EFFISUS VAPOUR FR SYSTEM

A1 CLASS FIRE RATED WEATHERPROOFING AIR AND VAPOUR BARRIER (AVCL)

EFFISUS VAPOUR FR MEMBRANE

Now certified as a Class A1 membrane.

Effisus Vapour FR works as airtight vapour control layer (AVCL) protecting the building from condensation risk and improving the airtightness and consequently the energy efficiency.

SPC Applus Certification EN 13501-1

CERTIFICATIONS ON GOING

EFFISUS BREATHER FR SYSTEM

A1 CLASS FIRE RATED WEATHERPROOFING BREATHABLE MEMBRANE

EFFISUS BREATHER FR MEMBRANE

Now certified as a Class A1 membrane.

Effisus Breather FR membrane was designed for protection of facades against moisture, driving rain and wind avoiding corrosion, insulation deterioration and mould growth on the facade elements.

It has an exceptional UV resistance and the existence of a large range of accessories allows its installation on the most demanding project requirements.

EN 13501-1

CERTIFICATIONS ON GOING

EFFISUS ECOFACADE SYSTEM

AIR TIGHTNESS AND WATER VAPOUR MANAGEMENT FACADE INTEGRATED SYSTEM

EFFISUS ECOFACADE SYSTEM

Effisus Ecofacade Envelope System ensures facade air and water tightness, while ensuring proper management of water vapour. It eliminates the possibility of condensation and conditions associated with moisture, maximizing energy efficiency and acoustics.
